SUMMARY

As a FullStack Versatile Developer and a BBA student, I strive to use my diverse skill set to create innovative solutions that align with business objectives. My proactive and analytical approach enables me to contribute my technical expertise and business acumen to drive innovation and efficiency with any organization.

EXPERIENCE

PhotoFlick | *Reactjs, TypeScript, TailWindCss, AppWrite*   **Jan 2024**

Sole Developer

- As the sole developer of this social media project, I managed the backend with Appwrite, configured APIs, and built systems for storage, users, and posts. This project showcases my ability to handle complex challenges and advance my web development skills. </> SourceCode - LiveDemo 🔗

SmartBrain | *Reactjs, Nodejs, Expressjs, BCrypt, Css, ClarifaiAPI, PSQL*   **Jan 2024**
Sole Developer

- Developed a web application using React.js and Node.js, featuring secure user authentication with hashed passwords. The main feature uses an external API to detect faces in images via URL, updating the face count in real-time. Implemented custom CSS for accurate bounding box display and designed API endpoints for efficient front-end and back-end communication, showcasing my full-stack development skills.</> FrontEnd Code - BackEnd Code 🗄 - LiveDemo 🔗

Xibarri | *React Native, Expo, Firestore, Puppeteer, GoogleMapsApi, Python, NodeJs*   **Jul 2023 - Now**

Member of the Programming Team

- As a member of the programming team at Xibarri, I contributed significantly to the development and optimization of the application. My responsibilities included building a custom interactive map and scraping web data using Node.js to meet event-specific requirements, such as event locations (latitude and longitude). I also developed key app screens, including Event Details, popups, and sharing functionalities.</> SourceCode

EDUCATION

Aspasia   **Mar 2024 - Present**
Full-Stack Web/Mobile Development   Barcelona

EU Business School   **Sep 2019 - Present**
Business Administration Bachelor's Degree   Barcelona

ZeroToMastery   **Oct 2023 - Oct 2024**
Full-Stack Web Development   Online
Data Structures & Algorithms
Python Developer 2024
ThreeJs
Ethical Hacking
ML Project (HuggingFace)

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, SQL, PSQL, TypeScript, Python, Lua, Git.
- **Frameworks:** Reactjs, ReactNative, Expo, React3Fiber, Node.js, Sequelize, Knex.js, Flask, Next.js, TailWindCss, Vitest, Phaser.js, Three.js.
- **Developer Tools:** Vs Code, SublimeText, Npm, Yarn, Tiled, PostMan, Vitest.
- **Technologies:** RESTful APIS, GitHub, HuggingFace, WordPress, CommandLine, Shell, Axios, WebScraping, Unit Testing.

LANGUAGES

- **Arabic**
- **English**
- **French**
- **Spanish**
